AT MODERATE RATES,
Apply to ENGELHARDT & CO., Owners,
no5 Or to the Captain on Board.

WARNER'S SAFE PILLS

Are an immediate and active stimulus for a Torpid Liver, and cure Costiveness, Dyspepsia, Biliousness, Bilious Diarrhœa, Malaria, Fever and Ague, and should be used whenever the bowels do not operate freely and regularly

Their action is gentle than that of other pills, and at the same time more effective. No other pills require such small doses for thorough work.

They have been used with great success in the English army where Malaria prevails, and are the best antidote for all kinds of Malarial Poison.

People who live or work in unhealthy places, and those of sedentary habits, should use them. Taken at bed-time, they promote rest and bring on natural evacuations the next forenoon.

They do not act directly on the bowels, but indirectly through the liver, by causing it to secrete the necessary bile, and should always be preferred to pills which operate as a violent cathartic, causing nausea and weakness.

Price, 25 cents a Box.

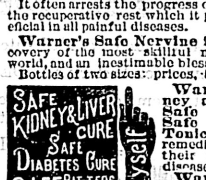

WARNER'S SAFE NERVINE

Quickly gives Rest and Sleep to the suffering, cures Headache and Neuralgia, prevents Epileptic Fits, and relieves Nervous Prostration brought on by excessive drink, over-work, mental shocks and other causes.

Powerful as it is to stop pain and soothe disturbed nerves, it never injures the system, whether taken in small or large doses.

It often arrests the progress of serious diseases by the recuperative rest which it produces, and is beneficial in all painful diseases.

Warner's Safe Nervine is the improved discovery of the most skillful nerve doctor of the world, and an inestimable blessing to all who suffer. Bottles of two sizes: prices, 50 cts. and $1.00.

Warner's Safe Kidney and Liver Cure, Safe Diabetes Cure, Safe Bitters and **Safe Tonic** are also superior remedies, unequalled in their respective fields of disease

Warner's Safe Remedies are sold by Druggists and Medicine Dealers generally throughout the country. Send for Pamphlet and Testimonials.

STOCKS AND MINES.

CARIBOO LAKE DITCH AND MINING COMPANY.

Location of Works, North Fork of Quesnelle River.

ASSESSMENT NO. I.

NOTICE IS HEREBY GIVEN, THAT AT A meeting of the Trustees of said company held on the 29th day of May, 1880, the 1st assessment of twenty-five cents per share was levied upon the capital stock of said company, payable forthwith to Charles Wilson, Secretary, at the Company's office, Barkerville, B. C.

Any stock upon which said assessment shall remain unpaid on the 29th day of June, 1880, shall be deemed delinquent, and will be duly advertised for sale at Public Auction, and unless payment be made, before, will be sold on the 23rd day of July, 1880, to pay the delinquent assessment, together with costs of advertising and expenses of the sale.
CHARLES WILSON, Secretary.
Barkerville, B.C., 30th May, 1880. je13dw

HIBERNIAN SILVER MINING COMPANY, LIMITED.

NOTICE IS HEREBY GIVEN, THAT THE FIRST instalment of assessment No. 3, amount $30, levied May 2nd, 1879, viz: $7 50 per share, is now due and must be paid to the Secretary on or before the 15th inst. The second instalment of $7 50, payable at call of Secretary, will be due and payable at same time. By order of the Trustees.
R. J. McDONELL, Secty.
Victoria, June 11th, 1880. je12

ENTERPRISE GOLD AND SILVER MINING COMPANY (LIMITED.)

NOTICE IS HEREBY GIVEN, THAT AT A meeting of the Directors of the above Company held this day, the ninth assessment of 20 cents per share was levied on the capital stock of the company and is payable forthwith to the Secretary, at the Company's office, Langley street, Victoria and after the 7th day of July next the same will be delinquent.
W. POLLARD, Secretary.
Victoria, B.C., 7th June, 1880. je8

TO THE SHAREHOLDERS OF THE
QUESNELLE QUARTZ MINING COMPANY (LIMITED.)

THE DIRECTORS OF THE QUESNELLE QUARTZ Mining Company at the end of their term of office submit the following report for your consideration:—

During the mining season of 1879 a shaft was sunk on No. 2 location to a depth of 114 feet from the surface, the size of the shaft being 7 ft. by 3½ ft. in the clear. The shaft runs through rock which had to be blasted the entire distance; it has been thoroughly timbered throughout and is secure and commodious.

At 100 ft. from the surface a cross-drive 5 ft. by 3½ ft. in the clear was run. At a distance of 33 ft. from the shaft it cut into a body of quartz, on which a level was run 20 ft. The quartz extracted was found to be much broken and mixed with bedrock, doubtless caused by the movement of the country rock which has apparently broken and disintegrated the vein at that level.

A 5-stamp quartz mill has been purchased and erected, the cost of which was greatly enhanced by the unavoidable expense and difficulty attached to moving heavy machinery for a distance of 30 miles through a rough country where no roads or trails existed.

Forty tons of quartz were worked in the mill producing 108 ounces of bullion, which sold for $1256 67.

Good and substantial buildings have been erected over all the works.

The directors are of opinion that it is advisable to sink the shaft at least 200 ft. deeper before running any cross-drifts. To accomplish this it will be necessary to place steam power on the mine; they therefore recommend that the funds of the Company be first devoted to that purpose and that arrangements be made for the purchase of engine and pumps of the requisite capacity and to place them on the ground with as little delay as possible.

The improvements made by the Dominion Government in the Cottonwood Canon will enable boats capable of carrying machinery to reach a point within 9 miles of the mine; a road thence to the mine could be constructed, which would enable machinery to be placed on the ground at a reasonable cost.

The accounts of the Company have been carefully audited; an abstract thereof is herewith given:

DR.	CAPITAL ACCOUNT.	
To sundry shareholders for 600,000 shares at $1 each		$600,000 00
		$600,000 00
CR.		
By assessment acct. amount called up		$ 31,440 08
By balance, capital subject to call		568,560 00
		$600,000 00
DR.	ASSESSMENT ACCOUNT.	
To capital acct., amount called up		$ 31,440 00
		$ 31,440 00
CR.		
By Cash acct., amount of assts collected		$ 31,167 64
By balance, delinquent on 51,774 shares bought in by Company		272 36
		$ 31,440 00
Dr.	CASH ACCOUNT.	
To assessment acct		$ 31,167 64
To bullion acct		1,256 67
To sundries		191 70
		$ 32,616 01
CR.		
By property acct., purchase of locations		$ 745 15
By mine acct., labor, material, &c		18,171 54
By mill acct., cost, freights, erection, &c.		13,098 01
By balance, cash on hand		601 31
		$ 32,616 01
DR.	BALANCE.	
To liabilities in debts due by the company nil		$
CR.		
By assets—5 locations valued at		$ 745 15
5-stamp mill & appurtenances		7,000 00
Buildings, mining tools and material		2,000 00
Cash on hand		601 31
		$ 10,346 46

From the foregoing it will be seen that there are debts or liabilities owing by the company.

The property of the company is estimated at $10,346 46, a value that would not exceed the cost of replacing it under favorable circumstances

Since work was suspended last fall everything at the mine has been under the charge of a caretaker at an expense of $75, the only other expense incurred during the last winter being those necessary for advertising, etc, the secretary having performed the duties of his office without remuneration. Neither the auditors nor directors are or were under pay at any time.
JAS REID, President.
R. J. SKINNER, Secty.
Quesnelle, B.C., 3rd May, 1880.

I hereby certify that I have examined the accounts of the Quesnelle Quartz Mining Company, Limited, and that the foregoing is a true and fair abstract thereof. M. M. HAGARTY,
my26dw1m Auditor.

PRINTING.

THE
BRITISH COLONIST

A DAILY AND WEEKLY PUBLICATION.

ESTABLISHED IN 1858.

This Journal has the largest and most extended circulation of any newspaper in the Province. It is the only publication in British Columbia that receives

TELEGRAPHIC
DISPATCHES.

Its value as a news and advertising medium is therefore very great. Within the past few weeks an entirely

NEW DRESS

has been provided, and the paper having been improved in other respects is the most reliable medium of intelligence on the Northern Coast.

THE
DAILY COLONIST

Is delivered by carriers at subscribers' doors at **25 CENTS PER WEEK.**

THE
WEEKLY COLONIST

Is sent to any part of the Province, Canada, the United States or Great Britain for

FOUR DOLLARS A YEAR,

If paid in advance. Orders may be sent by mail.

THE
JOBBING
DEPARTMENT

Has been entirely renovated and now contains three Steam Presses and a complete line of

NEW TYPE

For performing every description of

ENGLAND AND RUSSIA.

The *Golos* publishes a long leading article in answer to the statement recently made by the Berlin *Post*, that no real Russian statesman would rely upon Mr. Gladstone's alliance with the Panslavists. The *Golos* says: "The Russian independent press and Russian public opinion welcomed the victory of the English Liberal party, not because it was hoped that their policy would release Russia from the engagements upon her by the Treaty of Berlin, but because she requires and desires peace, which is guaranteed by Mr Gladstone's and Lord Granville's Cabinet, but was endangered by the policy of Lord Beaconsfield. The Berlin Treaty will remain the basis of Mr. Gladstone's policy as well as of Russia's precisely because both aim at peace. After the recent solemn vote of the English people no one can say that Mr Gladstone's programme is not a national one. The attacks made by the German and Austrian press against the new Cabinet only prove that the English elections have upset combinations of no peaceful character. Prince Bismarck naturally watches the fulfilment of the Treaty of Berlin, but he never proved himself animated by any hostile feeling towards the Eastern Christians, and therefore when he sees that Mr. Gladstone's Cabinet intends to execute the stipulations of the Treaty of Berlin just as much as that of Lord Beaconsfield did, only in a more equitable and humane manner, he will unite with England and Russia, and by this means the peace of Europe would be assured." The new semi-official journal, the *Bereg*, advises the Russian papers to beware of forming too hasty conclusions concerning the foreign policy of the new English Cabinet, in order to prevent any dangerous illusions. It adds: "Mr. Gladstone's Cabinet is certainly a more Liberal and peaceful one than its predecessor, but the English elections are a purely internal matter, and an injudicious expression of foreign opinion upon them may be more harmful than profitable to Russian interests."

THE PANAMA CANAL.

A conference was held at the Vaudeville Theatre, Paris, on the 8th ult. in aid of the pension fund of the "Societe des Gens de Lettres," at which M. de Lesseps gave a further account of his journey in Central America, and explained many interesting points in connection with his great project. He was accompanied by M. Henri Martin and by the eminent Dutch engineer, M. Dirks. M. De Lesseps enlivened his description of the countries from which he has just returned by exhibiting photographic sketches of the different scenes by aid of a magic-lantern, explaining each picture as he went on. Several interesting facts relating to the technical part of the Panama scheme transpired. There are about 40 miles to be cut, and the amount of earth to be removed is estimated at 73,000,000 cubic metres; so that, allowing 8,000 workmen and the necessary machinery to remove 50,000 metres a day, working 250 days in the year, the labor would be completed in six years. The proposed canal would follow almost the same course as the Pacific Railway through the valleys of the Rio Grande and the Rio Chagres. These two valleys at their nearest point are only separated by a mountain which will not prove a very great obstacle to their junction. The earth removed from the bed of the canal will be utilised for banking up a reservoir to regulate the stream of the Rio Chagres, and to supply the surrounding country with water, the want of which is at present very much felt. That nothing need be feared from earthquake was proved by the exhibited photographs of well-preserved antique ruins that have never suffered from any shocks. A telegram from Paris says that Messrs. Bowrenck and Hersant have contracted to do the work for twenty millions sterling, and nothing apparently now remains but for the public to subscribe the money.

THE $70,000 MEETING.

The ratepayers will meet to-night to decide upon the advisability of granting the city corporation power to raise $70,000 to complete the water works system and repay to the city revenue the sum of $15,000 advanced on water works account. It has been shown by the Mayor that no additional taxation will be necessary to meet interest and sinking fund; the council have resolved to expend the $15,000 on street improvement; and the reservoir system for storing and distributing water is approved by the most eminent European engineers of the day. We therefore hope that all who feel an interest in the welfare and advancement of the city will give the scheme the benefit of a dispassionate hearing and a reflective and unprejudiced vote.

Contradiction.—My attention has been drawn to a notice in *The Colonist* to the effect that S. H. Glover conducted the business of the Commission Store, Johnson street, for 3½ years. S. H. Glover is under a mistake when he makes that assertion. When S. H. Glover came into my employ at the Commission Store, 3½ years ago, he knew no more about the clothing business than an apprentice boy. He had all to learn; therefore he was subject to my orders, and when he departed from that rule he was conducted out of the store on short notice. A. Gilmore.

To Miners.—Should you be bound for the Skagit mines, if you will call on Fell & Co., Grocers, Fort street, reliable Information will be furnished you as to the best route and the necessary outfits required for your trip.

BY ELECTRIC TELEGRAPH.

EXCLUSIVELY TO THE COLONIST, THE ONLY NEWSPAPER PUBLISHED IN BRITISH COLUMBIA THAT RECEIVES TELEGRAPHIC DISPATCHES.

Morning Dispatch.

ENGLAND.

London, June 16.—The new 4½ per cent. Indian loan has been taken by the French syndicate at 103 3-10.

London, June 17.—The House of Lords last evening adopted two amendments to the burial bill in opposition to the government by majorities of 24 and 19, respectively.

In the House of Commons Henry Richard, liberal, moved an address praying her Majesty that direct communications be made by the foreign secretary with other powers with a view to the mutual and simultaneous reduction of European armaments. Courtney, liberal, suggested the adoption of a resolution in place of the address moved by Richard, to the effect that it is the duty of the government on all occasions where circumstances will permit to recommend to foreign governments a reduction of European armaments.

Premier Gladstone said that he was not favorable to affirming propositions which are not susceptible of immediate application, but if the House desired to adopt such a resolution he would not stand in the way.

Richard withdrew his motion and Courtney's resolution was carried with one dissenting vote.

At a meeting of the Irish members of parliament it was resolved to ask the government to double the grant for the relief of Irish distress and to charge the uniform rate of 1 per cent. interest, and also that £60,000 instead of £30,000 be voted for the construction of fisheries. If the amendments are rejected in parliament Parnell will move that the bill for relief of distress be referred to a special committee of Irish members under the chairmanship of Forster, chief secretary for Ireland.

The report of a committee of the House of Commons in the case of Bradlaugh states that there is no precedent whatever for the refusal of the House to allow a member to take the parliamentary oath. The committee hold that the mere compliance of Bradlaugh with the form used when the oath is taken would not be taking the oath and that the House can and ought to prevent him from going through such a form. Therefore the committee advise that he be allowed to affirm.

IRELAND.

The American riflemen to-day practiced at Dollymount range. At first they made a good many misses, but afterwards shot well, some making 6, 8 and 10 bullseyes in succession. They only shot at the 900 yards range. Seven Irish riflemen also shot, their scores ranging from 102 to 213—Joynt making the highest score.

SOUTH AMERICA.

Panama, June 7.—A correspondent in Chile writes that the terms of peace the government is disposed to offer to the allies are rather severe. Bolivia is required to resign all right to the territory of Atacoma as far as the Loa, which is to be the dividing line between Peru and Chili. Bolivia's domain on the coast will cease forever. Peru's share of the penalty for making war on Chili is placed at the not insignificant sum of $200,000,000, and as a pledge for the payment of the same and until such is effected Chili will retain the district of Taxapaca.

CALIFORNIA.

San Francisco, June 16.—W. H. L. Barnes appeared before the supreme court to-day to have an appeal in the Kalloch impeachment case advanced on the record. Highton, Kalloch's counsel opposed and the court took the matter under advisement.

The city census has been completed. It is said that the Chinese in the city don't exceed twenty thousand.

Several fires have occurred during the last 24 hours; damage slight in every case.

San Francisco, June 17.—A fire on Pacific street last night destroyed three frame houses. Thomas Sands, foreman of Engine No. 1, and John McCall, of the hook and ladder company, were badly hurt by a falling shed.

Great Britain.

Sir John Lubbock, Liberal, has been elected to Parliament for London University without opposition in place of Mr. Robert Lowe, raised to the peerage.

London, June 4.—It is reported that two partners in a firm of brokers—Keyser and Frederachi—whose extensive operations for a rise in many securities and subsequent attempts to close them troubled the market for some time, have disappeared, leaving affairs in great confusion. A severe fall occurred, principally in American and Canada railways, and sales were pressed very persistently. No doubt that in view of the firm's difficulties, which for some days have been notorious, heavy speculative sales for a fall were made, and many weak accounts for a rise closed. It is understood the defaulting partners are guilty of graver offences than mere speculation. According to rough estimates their liabilities will be £30,000, due partly to relatives who lent them assistance to carry them over the last settlement.

An Old Man Restored to Health.

Batavia, N. Y., Sept. 15, 1879.

H. H. Warner & Co., Rochester, N.Y.

Gentlemen:—"For forty years I have suffered with kidney and liver difficulty, being obliged to void urine as often as once in 30 minutes, and have also been a great sufferer from palpitation of the heart. I am now using your Safe Kidney and Liver Cure, and can truly say, at 70 years of age, that it makes me feel like a new man.

2 Peter Showeman.

Picnic versus Excursion.

To the Editor of the Colonist:—Sir—On Dominion Day I notice that the Victoria Fire Department will hold their annual picnic, and, also, that a steamboat excursion is advertised under the auspices of the Wesley Sunday School. I can scarcely conceive it possible that the disciples of so good a man as John Wesley would try to injure the firemen's picnic, especially as the proceeds of such picnic are handed over to the trustees of the Charitable Fund whereby the department can assist their injured members without appealing directly to the citizens. Neither can I for a moment think that a gentleman who is selling tickets for the excursion and who is also one of the city fire wardens wishes to injure the picnic although, it may to some appear so. My proposition to the parties who are getting up the excursion in question would be first to postpone their excursion until the weather is more favorable and attend the fireman's picnic to see for themselves whether it is not conducted on good sound principles; secondly, if they will not postpone the excursion (to show that they are not opposing the firemen) let each one purchase a ticket for the picnic and assist the Charitable Fund of the department—a body of men who, when called upon to perform their arduous and dangerous duties, make no distinction of persons but work for the public good without money and without price. Yours, etc.,

Justice.

The Hanlan-Trickett Match Made.

LONDON OFFICE OF THE GLOBE,
Friday, June 4.

The Hanlan-Trickett articles were duly signed to-day. The race takes place on the fifteenth of November on the Thames, from Putney to Mortlake, for two hundred pounds a side, the championship of the world, and the *Sportsman* trophy. Col. Shaw has posted fifty pounds on behalf of Hanlan. Everything has been amicably arranged to the satisfaction of all parties. Great interest is felt in the match.

San Francisco Stock Market.

DEPARTURE OF SIR E. S. SMYTH.—On the 6th inst. Lieut.-General Sir Edward Selby Smyth, commander-in-chief of the Canadian militia, left Canada for England, his term of office having expired. Militia officers speak highly of the services he has rendered in elevating the standing of the force during his stay in Canada, but a few of them in praising the chief are disposed to undervalue the efficient co-operation he has received from those officers in and outside the militia department connected with the force.

WE are in receipt nearly every mail of instructions to send *The Colonist* to parties who desire to subscribe for it; but it frequently occurs that the amount required for subscription is not enclosed. Our friends will understand that our rule is strictly cash in advance and that where that rule is not observed no notice is taken of instructions. The subscription price is now so low and the margin of profit so small that a rigid enforcement of the rule has become necessary.

THE LOST ATALANTA.—Two vessels which recently arrived at British ports report having passed a raft, evidently made on a man-of-war, and bodies of sailors dressed in the uniform of the royal navy. This is believed to be a clue to the fate of the missing training ship Atalanta.

MUNICIPAL POLICE COURT.—At this Court yesterday a Chinaman for neglecting to comply with a sanitary notice ordering him to abate a nuisance was fined $10 and costs. The summons in the assault case of Mrs. Carvalo *vs.* Kitty, an Indian woman, was dismissed.

BALLOON ASCENSION.—Mons. LeClair will make his last balloon ascension from Victoria this evening at 8 o'clock. This will be the last opportunity to witness this wonderful man's feat and the novelties that accompany him.

The Far West of Canada.

Mr. Sandford Fleming's report contains a great deal of information about parts of the Dominion which ought to be better known to Eastern Canadians than they are. The reports relating to Vancouver Island and the Queen Charlotte Islands are extremely interesting. Vancouver is about 280 miles long and 50 broad, containing 8,900,000 acres. Its shore line is so deeply indented that the island can be crossed at several points by less than one-third of its width of land travel. This feature is, of course, a great advantage, as it brings the interior of the island, with its vast wealth of timber and minerals, within easy distance of the sea. The surface of the island is very much broken, the agricultural land being in small patches and interspersed with mountains. In the Northern Division, down to a line joining Seymour Narrows and Nootka Sound, there are 4,100,000 acres. Of this only about 77,000 acres are cultivable. The Central Division, bounded on the north by the Qualicum River and Alberni Canal, contains 2,190,000 acres, of which 57,000 are estimated to be cultivable. The Southern Division contains 2,670,000 acres, of which 250,000 are accounted cultivable, making a total of 389,000 acres of cultivable land in the island.

It is clear enough that Vancouver will never be agriculturally wealthy. Its varied resources of other descriptions will, however, make its agricultural land exceptionally desirable, and will give a high value to the little patches of good soil found among the hills. There are also, it appears, many small lakes and swamps which probably could be drained and turned to account at small expense The chief wealth of Vancouver is in its timber, but even that may hereafter be eclipsed by its production of coal and other minerals. The island is densely wooded from end to end, and the trees attain to proportions unheard of in the East. In the order of their present commercial importance, they are, the Douglas fir, red cedar white pine, and spruce fir. On the Nanaimo River there is said to be enough of wood to give work to a large camp for ten years. The Chemainus River valley is densely clad with excellent fir and spruce for more than thirty miles. In the Cowichan district there is, estimated to be 2,000,000,000 board measure of marketable lumber. The agricultural crops in the island comprise everything that is grown in Ontario. The yeld of nearly everything is great; oats, 90 bushels; wheat, 40 bushels; turnips, 45 tons to the acre are spoken of. Peaches, grapes, and tender vegetables ripen well in the Saanich Peninsular, and hopes are entertained of their being successfully cultivated. About one-tenth of the available agricultural land has been taken up, and only one quarter of that taken up is being cultivated. The chief reason given for the smallness of the quantity is that the settlers who have gone to the island have mostly resorted there for mining and other pursuits more exciting than agriculture. Mr. Joseph Hunter is the author of the report about Vancouver Island.

The Queen Charlotte Islands lie off the coast of British Columbia, between latitude 52 and 54½. The length of the islands is 150 miles and the greatest breadth 50 miles. Agriculturally the islands are of little value, as they are nothing but a sea of mountains—the continuation of the Olympian range of Wasington Territory, of which range the Vancouver mountains form a part. Mountains of 4,000 feet are quite common in Queen Charlotte Islands. A few peaks reach 5,000 feet. The whole of the country is covered with coniferous trees, and these are rendered easy of access by the numerous fiords which run far into the interior. The trees are chiefly the Menzies spruce, western cedar, western hemlock and yellow cypress. It is too far north for the Douglas fir. At a Hudson Bay post at Massett, on the north-east of the islands, cattle take care of themselves winter and summer. Snow falls occasionally in the winter, but does not lie long except on mountain tops. The quantity of rain, especially in winter, is excessive. Gold has been found on the islands, but not as yet in paying quantities. The interior, however, has not been examined. At Skidegate anthracite coal of excellent quality crops out, and has been mined a little. Bituminous coal is also supposed, from the geological appearances, to be present. Lignites have been found at several places on the coast. Copper ore and magnetic iron ore are also found. The chief business of the natives, who are Haidas, is fishing and fur hunting. There are about 2,000 natives, who would be better men if the grog-sellers of Victoria and other towns were more particular as to whom they sold liquor. The report about these islands is written by Dr. G. M. Dawson.

Court of Appeal.

[Before Hon. A. F. Pemberton.]

FRIDAY, June 18.

A Gilmore *vs.* Wm. Fisher, M. Muir and James H. Innes.

This was an appeal from the decision of the defendants, who, as magistrates in the Esquimalt Licensing Court, refused the appellant's application for a retail liquor license for a house situate at Goldstream.

Mr. J. R. Hett appeared for the applicant.

Messrs. L. Lowenberg, J. Boyd, N. F. Foster and R. Weir, J. P., testified that the applicant is a fit and proper person to hold a retail liquor license and that a licensed house at Goldstream would prove a great convenience to the public.

The applicant testified that he has resided in the Province 21 years and has a house and a 350-acre farm at Goldstream. He had recently built a hotel there at a cost of $1000. It contained 14 rooms, 11 of which were bed-rooms. He proposed to serve meals and accommodate guests there and applied in the usual manner for a license to retail liquors. [Witness here put in a petition in favor of the license and signatures as to character, fitness, etc.] None of his neighbors had objected to the license being granted. A licensed house had been kept at Goldstream in early days by one J. Meady.

The case was here adjourned for three weeks.

THE U. S. revenue cutter Oliver Wolcott arrived in port yesterday with a dispatch for Allan Francis, Esq., U. S. Consul, relative to the distribution of presents amongst the Clayoquot Indians. Capt. Stodder held a conference with Mr. Francis, the result of which was that the 26th inst. is fixed for the departure of the cutter on her mission to the west coast of the island.

OFFICIAL VISIT.—On Thursday last the United States Consul at this port paid an official visit to the Japanese man-of-war Tsukuba and was received with the usual courtesies and a salute of seven guns.

THE annual convention of the Grand Lodge of A. F. & A. M. will commence its sessions at 2 p.m. to-day.

The Heyman, Marriner-Campbell Concert.

A very select and fashionable audience greeted the artists of the above very excellent combination at Theatre Royal last night. As Mrs. Marriner-Campbell was already an established favorite from her former visit here with Mad. Anna Bishop a great interest was awakened in reference to the ability of the other artists as yet unknown to us, excepting, perhaps Mr. Henry Heyman the violinist and Senor Espinosa pianist, whose reputation has already preceded them.

The concert opened with Weber's "Invitation a la Valse" for two pianos by Messrs. Espinosa and Coursen, both gentlemen acquiting themselves nobly. Time and finish were all that could be desired.

Next came a song "When the tide comes in" by Barnby, introducing Miss Rightmire, the charming and propossessing contralto. Miss Rightmire possesses a pure and rich voice of large compass. Her middle register is unusually mellow and sweet, whilst both her lower and upper notes are equally flexible. An emphatic encore was very justly accorded and in response to it Miss Rightmire so delighted the audience with a very pleasing ballad, "The Cows are in the Corn," that she was again recalled.

Mr. Henry Heyman next played the beautiful and pleasing Reverie by Vieuxtemps and at once established himself a true and finished artist of high order. His tone is simply magnificent, large, full and resonant and at the same time soft, melodious and touching. His exquisite bowing created great comment among the *dilletanti* and his touch was noted especially for purity and its unusual sympathetic qualities. He was enthusiastically encored and on reappearing played a celebrated berceuse, by Hauser, with exquisite taste.

Mrs. Marriner-Campbell's appearance was the signal for an outburst of enthusiastic applause, showing at once that her many admirers had in no way forgotten her. Her stage presence is very dignified and queenly, becoming her as a "queen of song" which she certainly is. The cavatina "Air du Sommeil" from L'Affricane, is one of the most difficult and trying pieces written for the voice and is the test of the power and ability of any great artist. To say that Mrs. Campbell sang this air perfectly would be saying but little indeed, but nothing that we could write would suffice to express the admirable rendition of this her first number. In response to the hearty encore accorded she gave a sweet little song, entitled "Hushed be my baby," with real feeling and great good taste.

Signor Espinosa, the pianist, next played "Kermesse de Gounods Faust," by Saint Saens. The Signor is a magnificent pianist. His playing in every case was beyond criticism and was marked especially for accuracy, delicacy, vigor, rapidity and expression. So captivated were the audience with his marvellous execution that a most demonstrative demand for a repetition of the piece was made.

The second part of the programme opened with a duett l'ostasi, by Alary, sung by Mrs. Marriner-Campbell and Miss S. Rightmire in so beautiful a manner as to at once completely captivate the spell-bound audience. Responding to a most enthusiastic encore with the lovely song "Beware," they created even more than a sensation by their most artistic and spirited rendering. Their voices blended most beautifully together and the ensemble was simply perfect.

A second encore was enthusiastically accorded and graciously responded to.

Mr. Henry Heyman's next violin solo, consisting of a sweet cavatina and Siciliano and Hongroise, was given in an exquisite manner, touching the tenderest chords and bringing him even more closely in smypathy with his audience. His first encore was a simple little berceuse by Hauser which he has made famous on the Pacific coast.

Miss Rightmire's song "O loving heart, trust on," was so tastefully rendered as to gain for her a double recall, in the first of which she gave a pretty little ballad "I've nothing else to do," and in the second a song with a plaintive melody called "Let me dream again."

Senor Espinosa's Berceuse by Chopin and Tremolo Etude of Gottschalk served to establish him even a greater favorite than his former wonderful execution had done and left the firm impression on the audience that he is the most accomplished pianist Victoria has ever listened to.

Great as had been the triumphs of Mrs. Campbell earlier in the evening, comparatively speaking, they lost much of their glory when she rendered MacFarren's delightful song, "Give my Love Good Morrow," with violin obligato by Mr. Heyman. Her magnificent voice fairly inspired the audience and Mr. Heyman was at his best again. In response to an encore Mrs. Campbell came out alone and sang "Beautiful Erin" most pathetically and when, to the great surprise of the audience Mr. Heyman played "The Last Rose of Summer" as an obligato melody from behind the scenes, the effect cannot be described. The house fairly shook with applause and after both artists had come forward they were compelled to repeat a portion of their efforts.

The concert closed with Weber's Jubilee overture for two pianos, comprising "God Save the Queen," the concluding portion of the overture. Mr. Edgar Coursen, who was the accompanist, proved to be a musician of unusual high order. All he did was thoroughly artistic and refined and we can say that he added greatly to the success of the concert. Mr. Coursen's unassuming demeanor was noticeable to the audience and he was complimented by several distinguished people present after the concert had terminated.

The concert was, as we predicted it would be, the most delightful musical treat afforded Victorians for very many years past. To say that success followed success and that the concert was in reality a continuous musical triumph expresses but a faint idea of its real merit. The company will give their farewell concert to-night and on Monday morning they leave for Portland. The programme will embrace many of the gems of the best masters, the concert commencing with the Dance of Death by Saint Saens, a grand duo for two pianos. To appreciate this remarkable piece of musical composition the audience must suppose itself in the vicinity of a graveyard. Once there so descriptive is the music that it can readily be imagined that the rattling of the bones of the skeletons, emerged from their graves to join in a dance, is heard. Gradually the rattle dies away, as one by the skeletons seek the retirement of their coffins and at last all is quiet again. The piece is a marvel of musical conception. There will without doubt be a very numerous and fashionable audience; reserved seats should therefore be secured as early as possible this morning at Redferns.

DRESS GOODS.—All the new materials in every shade at the LONDON HOUSE. *

What the Council will do if the Proposed Loan is Voted.

In the Council on the 3d June, Coun. McLean moved the following resolution: "That should the $70,000 loan be voted favorably by the ratepayers, and the city treasury receive back the large amount now owing to the city by the water works, be it

Resolved, that as soon as the city treasury has been refunded the said advance tenders for the following works shall be called for immediately and the works finished this fall:

Johnson Street Ward—Gravel Alfred street; gravel and grade Pandora street, Vancouver to Cook; repair Johnson, above Cook; grade and gravel Mason, above Quadra; Blanchard, north end, to be repaired; macadam and gravel Discovery, from Douglas to Government; grade and gravel Pembroke, from Blanchard to Government; brick drain corner Pembroke and Government; grade Princess avenue from Douglas to Blanchard; new brick drain, Pandora and Douglas; macadam Government from Fisgard to Discovery; gravel Cormorant, Government to Store street; from Fisgard to Atlas Foundry properly drained; repairing culvert on Government street washed away of brick work; repairing culvert on Government street washed away of brick work; repairing culvert on Douglas, between Johnson and Pandora; Hillside avenue graveled.

James Bay Ward—Macadam and gravel Fort street from Quadra to Cook; repairing wall south end of James Bay bridge; gravel St. John street; gravel and grade Carr and Princess to Simcoe; grade and gravel Simcoe, west end; gravel and grade Montreal and repair drain; grading on St. Lawrence; grading a portion of Oswego, north end and two drains also; gravelling near Michigan; Michigan and Princess drain enlarged; brick drain Humbolt near R. E. Church; four drains east side of Cook; partly macadam Fort to city boundary; gravel south end of Quadra to French Hospital; gravel and grade Richardson; gravel and grade Burdett avenue; grade Mears; gravel Douglas from Rae to Humbolt; grade and gravel Beechy; new drain at Carr's on Simcoe, and blasting on south side near Park Hotel on Simcoe for drain; drain on Langley street between Broughton and Courtney; fence, approach to quarry, Marvin's Hill.

Yates Street Ward—Gravel View street from Quadra to east end; gravel Vancouver street from Fort to Pandora street; to construct four new drains on Cook street; to repair brick culvert on Yates street, between Vancouver and Cook streets, and repair culvert; Bastion Square to be graded and gravelled.

Street Crossings—Johnson to Government street; Yates and Government; Fort and Government; Johnson street to be repaired; Yates street to be repaired; Broad street to be gravelled from Fort to Pandora street.

The motion was seconded by Coun. Mansell and adopted.

County Court.

[Before Hon. A. F. Pemberton.]

FRIDAY, June 18.

Hy. Saunder *vs.* Norton & Bain.—This was an action to recover $356.36 for goods supplied.

Wm. Muldoon testified that he served a copy of a summons personally upon Bain on the 14th inst. and that he now failed to appear.

The plaintiff deposed that he applied to the defendant, Bain, for payment of his claim last Saturday night and the defendant then told him that he had sold out. He admitted that the debt was due and said that he (plaintiff) might enter the saloon in which he had been a partner for it.

Judgment for plaintiff for amount claimed.

Mr. Theodore Davie, plaintiff's counsel, then applied for an order of commitment against Bain and produced a witness, F. Norton, who testified that his partner (Bain) sold out on Saturday last for the sum of $50 in cash and goods valued at $30, as he had been informed. Bain had sold out entirely without his consent

J. R. Graham, sworn, deposed that he bought Bain's interest in the Tableaux saloon for $50 in cash and blankets, boots, &c., valued at $30. The bill of sale called for $250 which he (witness) had deposited as security and was unable to produce now. He believed that Bain had gone to Yale.

Judgment deferred till Tuesday next.

NEW POTATOES.—Mr. Benj. Evans of Cadboro Bay Farm has presented us with the first new potatoes—firm, mealy and toothsome.

NAVAL.—H. M. S. Rocket arrived at Honolulu on the 26th of May, and left for Esquimalt of the 6th of June.

THE steamer Sir James Douglas returned from a three weeks' buoy-setting service at Fraser sands.

EXTENDED.—The time for receiving tenders for the sale of liquors, &c., at the fire department picnic has been extended to Tuesday, 22nd inst.

THE dredger goes to Fraser river on Monday.

Sooner or Later.

Sooner or later the storm shall beat
Over my slumber from head to feet;
Sooner or later the wind shall rave
In the long grasses above my grave.

I shall not heed them where I lie—
Nothing that sounds shall signify;
Nothing the headstone's fret of rain;
Nothing to me the dark day's pain.

Sooner or later the sun shall shine
With tender warmth on that mound of mine;
Sooner or later in Summer's air
Clover and violets blossom there.

I shall not feel in that deep laid rest
The sheeted light fall over my breast,
Nor ever note in those hidden hours
The wind-blown breath of the tossing flowers.

Sooner or later the stainless snows
Shall add their hush to my mute repose—
Sooner or later shall slant and shift—
And heap my bed with their dazzling drift.

Chill though that frozen pall shall seem,
Its touch no colder can make the dream—
That recks not the sacred dread
Shrouding the city of the dead.

Sooner or later the bee shall come
And fill the room with its golden hum:
Sooner or later, on half-poised wing
The bluebird about my grave will sing—

Sing and chirp and whistle with glee,
Nothing his music can mean to me.
None of those beautiful things shall know
How soundly their lover sleeps below.

Sooner or later, far out in the night,
The stars shall over me wing their flight;
Sooner or later the darkling dews
Catch the white spark in their silent ooze.

Never a ray shall part the gloom
That wraps me 'round in the silent tomb;
Peace shall be perfect to lip and brow
Sooner or later—ah! why not now?

WILL BE SOLD CHEAP—49 doz. Brussels Kid Gloves, damaged on voyage out—SHEARS & PARTRIDGE, London House. *

THE New Belt Corset in every size, price $1.87½ per pair, at the LONDON HOUSE. *

Edison's Engines.

[From the New York Herald.]

Edison has at last proved that he can utilize the electric current for railroad purposes. A *Herald* reporter went to Menlo Park yesterday to witness a trial of the new motor on the three-quarter mile railroad. As a precaution against unforeseen accidents, the member of the press selected a seat as near as possible to the inventor, because it would be only natural that that was the safest one in case the train should jump the track. At a signal from Edison, Mr. Batchelor moved the lever attached to the switch, and off we went. The riding was very enjoyable for the first five hundred yards or so, when, suddenly, a most horrible curve was reached, round which the motor, with the car attached, spun at a rather uncomfortable gait. Then came a series of serpentine curves that were enough to frighten anybody; but there was no slowing up. On the contrary, more power was put on, until it seemed that the whole party were going to be shaken from their seats. The line was located in the worst possible positions by Edison, in order that the "beauties" of his invention would be readily seen by anyone on the car. Some of the curves are as sharp as those used on the surface roads round street corners in New York, so the reader can imagine how pleasant it was to go round them at the rate of about 40 miles an hour. The strangest part of the programme was the easy manner of controlling the motor, it being stopped within fifty feet, although going at a high speed. It ran up against the heavy grades as easily as on the level track, and was as powerful at the end of the track as in the station, where the electric current firs tteaches the rail. After the first trial the reporter was invited to ride on the motor without having the car attached, so that the speed would be increased. Three went on this trip—one at the switch, another at the brake, and the reporter holding on for dear life. At the word "go" the machine shot off like a bullet, and it was only by holding on firmly that one's seat could be kept. As the curves were struck, the motor rocked fearfully; in fact, it was as hard to keep your seat on it as on an unbroken mustang when he sets his mind on the "bucking" process of dismounting you. The time made was fifty-three seconds from the station to the end of the track on the first trial, and forty-two on the second trial. The motor has an electric headlight, which is burning continuously, and which has a very pretty effect in the night time.

THE GOLD TAILINGS.

Of the gold-tailing process very little can be said, except that the samples of tailings sent to Menlo Park have proved very rich in many instances. Edison's agent, Mr. McLaughlin, will return from California in June. He has located the position of the sheds near Oroville and has built several undercurrents along the line of the sluices in that vicinity for the purpose of concentrating the auriferous sands.

THE ELECTRIC LAMPS.

Men are hard at work fixing up the large factory, situated south of the railroad, for the purpose of manufacturing the electric lamps in large quantity. Edison says it will take at least two months to finish it, and then he will turn out all the lamps necessary for his exhibition, which will take place about September. He will then light six miles of streets, the lamps being eighty feet apart, and will run his train over a three-mile road, all the power being obtained from the sixteen dynamo machines now in position.

Discredited Cricketers.

LONDON OFFICE OF THE GLOBE,
Thursday, June 3.

The cricketers calling themselves the Canadian Team are playing in England and Scotland, but on their first appearance they were discredited. A paragraph in the newspapers says they are composed of three natives of the United States, seven Englishmen, and only five real Canadians. The paragraph continues as follows:

Every honest cricketer in Canada scouts the scheme as ridiculous in the extreme. The newspapers are all down on the undertaking, and hope steps may be taken to prevent their playing as the representatives of Canada. Their only hope is that they may collar sufficient gate money to pay expenses and secure an enjoyable pleasure trip under the guise of Canadian representative cricketers. There is not one of them, unless it be Kearney, of Halifax, who plays well enough to be in a second eleven of county colts, therefore their reception has not been too enthusiastic.

A *denouement* has been reached in that Jordan, the captain of the team, was apprehended last night at Leicester by Detective Crisp, of the county police, on the information of Sergeant Stranger, charged with deserting from the Second Royal Horse Guards. His name is stated to be Thomas Dale. Since his alleged desertion he has been in Canada eight years, and held the captaincy of several clubs. He is married, and has several children.

In the Police Court at Leicester today Dale, *alias* Jordan, was charged with desertion from the Horse Guards since November, 1872. A sergeant of the same regiment identified the defendant, and produced his description. The defendant admitted the correctness of the charge, and was remanded to await an escort.

DENTAL.—Mr. R. B. Thompson, Dentist, having removed to his new rooms in Masonic Building, Government street, immediately over T. Wilson & Co.'s dry goods store, is now prepared to attend to his patients there. *

PARASOLS AND SUN-SHADES — 24 dozen just received at the London House, price 50c. to $6 each.

I Shall Never Travel Without Them.

BROCKVILLE, Canada, Sept. 25th 1879.
Messrs. H. H. Warner & Co., Rochester, N. Y.—Gents:—While travelling through the State of Texas during the past season, I contracted malarial difficulties that I had almost despaired of ever recovering from, and during the five months of my stay there was frequently prostrated and utterly unable to attend to any business; but through the recommendation of a friend living in your city I tried, as an experiment, your Safe Pills and Bitters, and am only too happy to testify to the beneficial success derived therefrom. I experienced a marked improvement very soon, and in a very short time complete recovery. An occasional dose of the Pills with a regular use of the Bitters kept me in splendid condition during the remainder of my stay. I shall never travel in Texas or the West without your Safe Pills and Bitters as a part of my outfit. If the remedies are not on sale here please send me three bottles of Bitters and half dozen boxes of the Pills, or tell me where they can be obtained in Texas, or the West, as I am about to return there. Yours, very truly,
2 G. A. J. GADBOIS.

A Good Thing.

German Syrup is the special prescription of Dr. A. Boschee, a celebrated German physician, and is acknowledged to be one of the most fortunate discoveries in medicine. It quickly cures Coughs, Colds and all Lung troubles of the severest nature, removing, as it does, the cause of the affection, and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years, giving satisfaction in every case, which its rapidly increasing sale every season confirms. Two million bottles sold annually. Beware of medicines of similar names, lately introduced. Boschee's German Syrup was introduced in the United States in 1868, and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough. Price 75 cents. Sample bottle, 10 cents. *

Holiday Presents.

Make your wife a present of a cooking stove or range manufactured at the Albion Iron Works, and you are bound to have a Christmas and New Year's dinner worth eating.

They are the pride of every household and when you go home to your meals, your wife will meet you with a smile and a well-cooked meal.

These are the only stoves that contribute to domestic happiness.

Testimonials without number.

Call and examine for yourself at the manufactory on Store, Chatham and Discovery streets. *

Clearance Sale of Dry Goods.

AT GREATLY REDUCED PRICES we are now disposing of a quantity of assorted Dry Goods, consisting of Ladies' and Misses' Costumes, Dress Materials, Embroidered and Beaded Cashmere Fichus, Black Lace Shawls, Girls' Lt. Cloth Jackets, Boys Linen Suits, Marcella, &c., Pelisses, Corsets, Parasols, Summer Skirts and Skirtings, Light Prints, &c., &c. THOS. WILSON & Co. *

MESSRS. BAGNALL & Co. have made an extensive addition to their music establishment in order to make room for a large importation of Pianos, Organs, Violins and other Musical Instruments. This well-known emporium will now be replete with all that can be desired in the musical line. Grand, Square and Upright Pianos from London, Paris, Dresden and New York (about thirty to select from.) Organs from thirty-five dollars; Pianos sold on the instalment plan; also, for hire or exchange. On hand, a large stock of Pictures. Picture Frames made to order, cheap. *

HALL'S VEGETABLE SICILIAN HAIR RENEWER is a scientific combination of some of the most powerful restorative agents in the vegetable kingdom. It restores grey hair to its original color. It makes the scalp white and clean. It cures dandruff and humors and falling out of the hair. It furnishes the nutritive principle by which the hair is nourished and supported. It makes the hair moist, soft and glossy, and is unsurpassed as a hair dressing. It is the most economical preparation ever offered to the public, as its effects remain a long time, making only an occasional application necessary. It is recommended and used by eminent medical men, and officially indorsed by the State Assayer of Massachusetts. The popularity of Hall's Hair Renewer has increased with the test of many years, both in this country and in foreign lands, and it is now known and used in all the civilized countries of the world. For sale by all dealers. 5dw

SAMPLE STORE.—Special Agency and Commission business. For cheap CLOTHING and FURNISHING Goods as good value for your money as it is possible for any one in this city to give call on S. H GLOVER, Bossi's Building, Johnson street, opposite Oriental alley. Having conducted for the last 3½ years the business of the "Commission Store" I am acquainted with the requirements of the public and am enabled to offer them GREAT INDUCEMENTS to purchase. I hope to see my old friends and customers at my new location. Will soon begin the manufacture of clothing to order. *

NEW DRY GOODS.—A. B. Gray & Co., Government street, have received per "Idaho" a large assortment of new good embracing Veil Gossamers and Nets Ladies' White Skirts in great variety new styles Ribbons, Laces; wide English Prints @ 12½c.; Piquets 18¾c.; new Dress Goods, &c., &c. Prices right. 2w

BABY LINEN.—Diaper Pinafores, 25 c. ea.; Bibs, 3 for 25c. Muslin and Piqué Dresses, a large assortment at the LONDON HOUSE. *

ALL kinds of Cabbage Plants 12½c. per 100. Celery, Tomato, Kale, Brocoli, &c., at greatly reduced prices at Luxford's Garden. *

DR. C. E. GEIGER.—Homœopathic physician and surgeon, treats all diseases of every description. Office, Government st. below Fort. *

CUSTOM HOUSE BLANKS for Entry, Outwards, Nos. 48 and 48½, for sale in quantities to suit, at *The Colonist* Stationery Store. *

TRY LUXFORD'S RELIABLE SEEDS—Sold at Shore & Co.'s, cor. Pandora and Douglas streets, and Bossi & Co.'s, Yates street. 2m

RHUBARB FOR PRESERVING.—Grown on good sweet soil at 2 cents per pound at Shore & Co's., corner of Douglas and Pandora streets. *

AUCTION SALES.

Auction Sale.

TO CLOSE JUNE BALANCES.

J. P. DAVIES & CO.

Will sell by Public Auction on

Tuesday, June 22nd, 1880.

AT 11 O'CLOCK, A. M.,
AS FOLLOWS:

HARWARE.

2 cs. pick handles, dash churns, patent step ladders, safety fuse, cabinet makers' materials, picture frames, iron and wood clamps, brooms, carbolized garden hose, wash boards, door mats, butt hinges, butcher knives, fine electro-plated spoons, forks and ladles, sash lifts, spring, chain and other bolts, drawer knobs, fast and loose butts, keys and blanks, chest and cupboard locks, crank handles, rim and mortice locks, fish lines, window springs, padlocks, coat and hat hook, wood and iron-head gimblets, assorted screws, T hinges, tacks, bucksaws, beaver and mink traps, crosscut saws, scythe stones, saw handles, brass cocks, fire irons, chest handles, trunk locks, ox cards, asst. files, mustard spoons, pocket cutlery, assorted, table steels, stencil plates, penholders, blanket straps, brush hooks, mining shovels, square shovels, buggy whips, sandpaper, chisel handles, bed fasteners, bung borers, gun wads, pistol caps, American patent planes, wire cloth, carving tools, door knobs, candlesticks, shop twine, child's hoops, brushes, dog chains, tinned iron spoons, screwdrivers, thermometers, etc., etc., etc.

FRY PANS.

— Doz. Fry Pans, assorted sizes from 1 to 9.

CROCKERY AND GLASSWARE.

Milk pitchers, candy jars, asst. plates all sizes, water pitchers, salad bowls, "Bastie" lamp chimnies, soup tureens, goblets, cut and pressed tumblers, handled beer mugs, cups and saucers, assorted lamp chimnies, sauce tureens, oval platters, wine glasses, candlesticks, preserve jars (patent top), demijohns, wine jars, coal oil brackets and lamps, cruet bottles, glass pitchers, fancy spittoons, etc., etc.

—ALSO—

At Commencement of Sale, under distraint for rent—Bedstead, Bedroom Furniture, Florence Sewing Machine, Kitchen Stove and Fixtures, Bedding, etc.

MUNICIPAL.

PROPOSED LOAN FOR WATER WORKS PURPOSES.

THE MAYOR AND COUNCIL BEG to place before the Ratepayers the scheme of the Water Works Engineer for putting the City Water Works in a complete condition.

To carry out the work a loan of $70,000 is necessary, and the following particulars place the matter as clearly as possible before the Ratepayers for their judgment thereon. Should the loan be effected and the work carried out the increase in water rents resulting therefrom will be about 20 per cent. This increase within two years will be ample to meet the amount annually required for interest and sinking fund of the loan. The Water Works at present are heavily indebted to the City for amounts taken from general revenue for reconstruction of the head works. This expenditure was necessary in order to continue the present supply of water and to prevent the entire destruction of the previously constructed works at Beaver Lake. The said expenditure has absorbed nearly the whole of the surplus revenue of the City for the current year, and should it not be repaid by means of a loan further works on streets will be impossible without increased taxation. The loan of $70,000 is intended to carry out the scheme of the Water Works Engineer and to repay to the general revenue for public works the amount already expended at the dam and elsewhere, which is nearly $15,000.

The Ratepayers are referred to the Engineer's report published in *The Colonist* on March 28th and to the following scheme.

CITY HALL, 22nd March, 1880.

To His Worship the Mayor
and Municipal Council.

GENTLEMEN,—In compliance with the resolutions requesting me to draught a scheme for the extension of mains and a better supply of water for the high levels of the City, I have the honor to report that after taking into consideration the probable large increase of population, and to guard against the necessity of being compelled to enlarge the main conduit pipe for many years,

I would suggest that it will be necessary to adopt the principle of a high and low service reservoir as I find that the high service reservoir to be effective must be constructed at an elevation above the level of the water in Elk Lake, and in order to obtain the delivery of the greatest quantity of water in the City and to effectively supply the high levels I would suggest that the 11 inch main be extended from Douglas street along Pandora street, say to the neighborhood of the Royal Hospital, as that would give an elevation of 135 feet above high water mark sufficiently high to supply all the thickly populated parts of the City.

A reservoir built at the point suggested would have the following advantages: The level of the water in the reservoir would be 58 feet below the level of the water in Elk Lake, and 48 feet will be available for the delivery of water from the above source which will give a theoretical delivery of 37,000 gallons per hour; running continually will give a supply sufficient for a population of 30,000 inhabitants allowing 25 gallons per head per day and by discharging 37,000 gallons per hour 10 feet above the level of the water in Reservoir and by causing it to pass through a hydraulic engine it will develop sufficient power to raise 3,000 gallons per hour through a 6 inch pipe into the high service reservoir which may be built on the high rock at the top of Fort street, at an elevation of 200 feet above high water mark, or 8 feet above the level of the water in Elk Lake, and that quantity would be sufficient for a population of 3,000 inhabitants. It is intended that there will be no connection between the service pipes of high and low service reservoirs except in case of fire. As to size of reservoirs required, I would suggest that the low service reservoir be built to hold 1,500,000 gallons, or, say, 140 feet square and 12 feet deep, and the high service one to hold 60,000 gallons, or, say, 30 feet square and 12 feet deep; and while selecting the best plan for the construction of said reservoirs I may add that in all well regulated cities it is an established principle that in building reservoirs to contain water for domestic use they should be built so as to be able to contain the greatest quantity of water in the smallest possible area and covered so as to exclude the light, as light is very injurious to water stored in a reservoir and intended for domestic use; and to carry out that principle I propose to build the reservoirs by blasting out 4 feet of the rock and using the rock provided by that means for building the balance of the wall, which would be 8 feet high, and that will make the reservoir 12 feet deep, the roof to be supported by cast iron columns. The cost of carrying out and completing the above scheme will not exceed $50,000, to which must be added $10,000 which will be required to complete the filter beds; but should you see fit to adopt the proposed scheme I am prepared to furnish you detailed plans and specifications for the same.

In conclusion I may add that I am aware that it is generally accepted as a fact that there is a natural reservoir at the head of Fort street and that there is nothing to do but to turn the water into it; but I find that to attempt to carry the water to one common reservoir that would partially supply the high levels the difference between the level of the water in reservoir and. evel of water in Elk Lake is so small, being only 25 feet, the difference in the quantity of water delivered in the city by comparison would be to one common reservoir at the high level, *but not sufficiently high to be effective for all the buildings*, and from a head of 25 feet the main conduit pipe will deliver 23,000 gallons per hour, and by the proposed scheme from a head of 48 feet the main conduit pipe will deliver 37,000 per hour, 3,000 o which will be effective for the highes buildings on the high levels, while the r would also be a saving in pipe as well a a more effective pressure on the city ma in in case of fire. I am aware that Gold stream has still some advocates who believe that the supply should have been obtained from that source; but without stopping to discuss that point I may say that, from whatever source the supply is obtained, the proposed scheme is equally required by all.

Respectfully submitted.
(Signed) ALEX. HENDRY,
Supt. and Engineer.

A BYLAW

To enable the Corporation of the City of Victoria to raise the sum of ($70,000) Seventy Thousand Dollars for the purposes therein set forth.

WHEREAS THE MUNICIPAL COUNcil of the Corporation of the City of Victoria has resolved to raise the sum of Seventy Thousand Dollars to pay off certain debts due in respect of the Water Works of the said City and to extend the said Water Works system into the suburbs of the said City.

And whereas it will require the sum of Six Thousand Three Hundred and Forty Dollars to be raised annually by special rate for the payment of the said debt and interest; as is hereinafter mentioned.

And whereas the amount of the whole rateable property of the said Corporation of the City of Victoria according to the last revised Assessment Roll being for the year 1879 was $2,655,820, irrespective of any future increase of the rateable property of the Municipality and of any income in the nature of tolls, interest or dividends from the work, and also irrespective of any income from the temporary investments of the sinking fund or of any part thereof.

And whereas for paying the interest and creating a yearly sinking fund for paying the said principal of $70,000 and interest as hereinafter mentioned, it will require an equal annual special rate of one-fourth of one per cent. on the dollar.

BE IT THEREFORE ENACTED by the Mayor and Council of the Corporation of the City of Victoria:

1. That it shall be lawful for the Mayor of the City to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same upon the credit of the debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of $70,000, and cause the same to be paid into the hands of the Treasurer of the said Corporation for the purpose and with the object above recited.

2. That it shall be lawful for the said Mayor to cause any number of debentures to be made for such sums of money as may be required not less than $100 each, and that the said debentures shall be sealed with the seal of the said Corporation of the City of Victoria and be signed by the said Mayor.

3. That the said debentures shall be made payable in twenty-five years at the farthest from the day hereinafter mentioned for this Bylaw to take effect at the office of the Treasurer of the Corporation of the said City of Victoria, and shall have attached to them coupons for the payment of the interest.

4. That the said debentures shall bear interest at and after the rate of Seven per cent. per annum from the date thereof, which interest shall be payable half-yearly at the office of the Treasurer of the Municipality.

5. That for the purpose of forming a sinking fund for the payment of the said debentures and the interest at the rate aforesaid to become due thereon, an equal special rate of one-fourth of one per cent. on the dollar shall, in addition to all other rates, be raised, levied and collected in each year upon all rateable property in the said Municipality during the continuance of the said debentures or any of them.

6. Clause two of the "Victoria Revenue Bylaw, 1875," as amended by the "Water Works Debenture and Revenue Bylaw Amendment Bylaw, 1877," and further amended by "The Bylaw to Authorize the Raising of Twenty Thousand Dollars, 1878," is hereby further amended by striking out the words "eight-tenths" and substituting the words "eleven-twentieths."

7. It shall be lawful for the said Municipal Council from time to time to purchase any of the said debentures, and such debentures shall be so expressed as to entitle the said Council to redeem and purchase the same on paying the amount thereof and interest due thereon to the date of such purchase to the holders thereof, and all debentures so repurchased shall be forthwith cancelled and destroyed, and no re-issue of debentures shall be made in consequence of such repurchase.

8. That this Bylaw shall take effect and come into operation upon the 1st day of July, A. D. 1880.

9. This Bylaw may be cited for all purposes as "The Bylaw to Authorize the Raising of Seventy Thousand Dollars, 1880."

Passed the Municipal Council this Ninth day of June, A. D. 1880.
L.S.
J. H. TURNER,
MAYOR.

1880!

DIARIES FOR 1880

—AT THE—

COLONIST STATIONERY STORE,

dec6 POSTOFFICE BLOCK.

Come ye citizens and strangers,
Minors, sailors and Western rangers,
Listen to the truthful story,
Of Frank Campbell of Victoria.
He in truthful words will tell you
Just the goods he has to sell you.
Mind ye now he isn't joking,
If you are fond of chewing and smoking,
Or if you are given to snuffing,
What he keeps does not need puffing.
He has brands will suit you really,
Tobacco users prize them dearly;
From all parts of the "Old Dominion"
He has stock, and his opinion
Is that none can suit you better
They will please you to the letter.
His Cigars, just from 'Hi vana,'
Smoke in the most lovely manner;
Meerschaum pipes of style and fashion
Just to suit each taste and passion;
And it is in Canada stated,
His Tobaccos are celebrated;
Green Seal, Straight Cut, all go,
Big Lick, Big Cut, Wind Sap, also
All the Fine Cut Brands for chewing
That your teeth will never ruin;
Pipes to suit the inveterate smoker
Cards for playing sindh or poker,
Pipes of briar and stems of cherry
More than any man can carry;
It would take a week to tell you
All the things he has to sell you.
While in town you may be stopping
At the 'Adelphi Corner' drop in;
Campbell you'll find at that location
Ready to give you information,
Or to see you well provided,
With what is by all decided,
The smoker's and the chewer's glory
The best and cheapest in Victoria.

F. CAMPBELL.

DYSENTERY, CHOLERA FEVER, AGUE, COUGHS, COLDS.

DR. J. COLLIS BROWNE'S

(Ex Army Medical Staff.)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr J COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—See *Times*, July, 12, 1864.

The Public, therefore, are cautioned against using any other than

DR. J. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION.

This Invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—diphtheria, fever, croup, ague.

CHLORODYNE acts like a charm in diarrhœa and is the only specific in cholera and dysentery.

CHLORODYNE effectually cuts short all attacks of epilepsy, hysteria, palpitations and spasms.

CHLORODYNE is the only palliative in neuralgia, rheumatism, gout, cancer, toothache, meningitis, &c.

EXTRACTS FROM MEDICAL OPINIONS.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was CHLORODYNE. *See Lancet*, Dec. 31, 1864.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay.—"CHLORODYNE is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed."

Dr. Lowe, Medical Missionary in India, reports (December, 1865) that in nearly every case of Cholera in which Dr. J. COLLIS BROWNE'S CHLORODYNE was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera.—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

See leading article, *Pharmaceutical Journal*, Aug. 1, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne; that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION.—None genuine without the words "Dr J. COLLIS BROWNE" on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

Sole Manufacturer, J. T. DAVENPORT, 33, Great Russell Street, Bloomsbury, London.

Sold in bottles at 1s. 1½d., 2s. 9d., 4s 6d. and 11s.

MEDICAL

DR. SPINNEY & CO'S DISPENSARY,

No. 11 KEARNEY STREET, SAN FRANCISCO.

DR. SPINNEY, well known as the founder of the Montreal (C. E.) Medical Institute, and late Proprietor of the SPINNEYVILLE INFIRMARY would most respectfully inform his patients and the afflicted generally, that he still continues to treat chronic and nervous diseases with unparalleled success.

LADIES AND GENTLEMEN,

Remember that procrastination is the thief of time so

COME AND BE HEALED!

It matters not what you troubles may be, come and let the Doctor examine your case. It will cost you nothing for consultation, so please call and satisfy yourselves whether the Doctor understands your case. If he can cure you he will tell you so; if not, he will tell you that, for he will not undertake a case unless he is confident of effecting a cure.

Parties at a distance wishing treatment, by sending $25 and a minute description of their troubles will receive in return a full course of treatment securely packed so as not to excite curiosity.

DR. SPINNEY will guarantee to forfeit Five Hundred Dollars for every case of any kind or character which he undertakes and fails to cure.

P. S.—For diseases of short standing a full course of medicines, sufficient for a cure, with all instructions, will be sent to any address on receipt of $10.00 Call or Address
